PROFILE

recent computerscience graduate with the skill of full-stack web development,local area network installation and configuration,IT techinitian and strong enthusiasm for datascience,machine learning ,AI related stuffs ,database management,system admnistration and Digital digital marketing.Experienced with various programming languages, including Python, , C++, and Java, as web technologies (HTML, CSS,php,react,javascript,and node.js) and database management, ,understanding of data science and machine learning, with hands-on knowledge of libraries and frameworks such as TensorFlow PyTorch, numpy pandas,Strong understanding of data visualization tools (Matplotlib, Seaborn,)
.

EDUCATION

2021 - 2024 G.C
HAWASSA UNIVERSITY

- BSc in COmputer science
- Grade : 3.3/3.8

HARD SKILLS

- full-stack web development local area
- network (LAN) installation and configuration
- data science AI and machine learning
- enthausians
- IT technician(IT support)

SOFT SKILLS

- Leadership
- Project Management
- Strategic planning
- Data-Driven Decision Making
- Team Work
- eager to update with the latest thechnology
- Honesty
- good communication skill

LANGUAGES

- English (Professional)
- Amharic(Native)

CERTIFICATES

- **Introduction to AI (**Huawei Talent Online, Issued: May 2024)
- **Employability Skills and Job Readiness(**Dereja in partnership with Mastercard Foundation and Hawassa University, Issued: May 2024)
- **Introduction to Datacom Technology** Huawei Talent Online, Issued: November 2023 **CISCO (CCNA) Introduction to Networks(**Cisco Networking Academy, Issued: March 2023) **Introduction to C++(**SoloLearn Online, Issued: March 2023) data science fundamentals(ethiocoders or udacity)
- **. computer Hardware and software mantainance from SATCOM institute of technology .level 2 COC in IT support**

WORK EXPERIENCE

- Internship
  - Installed and configured LAN systems, ensuring reliability and security.by using CISCO AND HUWAIE networking devices.and also hand on experiance on network design ,master on putty and CISCO packet tracer.
  - **Anhu Anthi Tech: 2months and above experiance as network Engineer**

- **Hawassa University**
  Class Representative
  - Organized and facilitated over 10 student meetings to address academic challenges, leading to increased student satisfaction
  - Collaborated with other representatives to improve university policies and practices
  - Developed leadership and communication skills through conflict mediation and smooth relations with staff.

PROJECTS

Final Year Project (web-application that enables to sell and buy ethiopian agricultural products)

- Led a team of 3 developers and designers to create a this application.
- Coordinated project tasks, timelines, and deliverables, ensuring on-time completion.
- Designed the overall user interface (UI) for the website, improving user experience.
- copmplet it`s back-end process and also i participated on its fornt-end.

- **Interests : Reading, Travel, cooking,experiancing iot,watching AI related films and worshiping .**
